

MUHAMMED NOWFAL

AI MERN FULL STACK WEB DEVELOPMENT

<https://nowfal.vercel.app> | +91 8610297319 | nowfalmuhammed@gmail.com

Summary

Full-stack web developer skilled in building responsive, user-focused applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in both frontend and backend development with a focus on performance, accessibility, and clean code. Currently pursuing B.Sc. in Computer Science.

Education

Government Arts College (Autonomous) Coimbatore - 18

2023 – 2026

Bachelor of Science, Major in Computer Science

Expected Graduation : 2026

Projects

- **GACVERSE (Final year Project, Live: gacverse.vercel.app)**
 - A full-stack MERN e-learning platform enabling students and teachers to share resources, manage courses, and access academic materials seamlessly.
 - Implemented secure authentication, dynamic content management, and a responsive UI using Redux Toolkit, Tailwind CSS, and Shadcn UI for an optimized learning experience.
- **FTC - Finna Tuition Centre (Real world usage, Live: finna-tuition-centre-drab.vercel.app)**
 - A MERN-based web application for managing student attendance, fee payments,bills and records efficiently.
 - Designed a user-friendly and responsive interface with real-time data updates to streamline operations for tuition centre administrators.
- **Byte-Cart E-Commerce Platform (Live: byte-cart.vercel.app)**
 - Built with Next.js and Tailwind CSS with a fully responsive UI and smooth user experience. Implemented OTP-based authentication system for both users and sellers.
 - Features include product listing, cart, wishlist, product creation/editing/deletion for sellers. Focused on user-friendly design, responsive layout, and fast performance.
