PROJECTS

Intelli-PDF – AI-Powered Intelligent Learning Platform

Tech Stack: Next.js, MongoDB, Google Gemini AI, RAG | **Live Demo:** [intelli-pdf.vercel.app](#)

- Developed a full-stack AI-powered learning platform enabling users to interact with PDF documents through context-aware conversations using Retrieval-Augmented Generation (RAG).
- Integrated Google Gemini AI for automated flashcard generation, quizzes, document summarization, and personalized learning experiences.
- Designed responsive user interfaces optimized for desktop and mobile devices.
- Implemented PDF processing and AI-powered study tools to transform static content into interactive learning resources.

FTC – Finna Tuition Centre Management System

Tech Stack: MongoDB, Express.js, React.js, Node.js | **Live Demo:** [ftc-kappa.vercel.app](#)

- Developed a full-stack tuition management platform used in a real-world educational environment.

- Implemented student attendance tracking, fee management, billing records, and administrative dashboards.
- Built responsive interfaces with efficient data management and real-time updates. Streamlined administrative workflows through centralized record management and reporting features.

FreeTube - Personalized YouTube Content Management Platform

Tech Stack: Next.js, MongoDB, Zustand, YouTube Data API | **Live Demo:** free-tube.vercel.app

- Developed a full-stack YouTube companion platform that allows users to watch videos ad-free, manage subscriptions, and organize content into playlists, Shorts feeds, and Watch Later collections.
- Integrated the YouTube Data API to search channels and videos, sync subscription updates, detect Shorts, and automatically build channel-wise video libraries with watch-progress tracking.
- Implemented Zustand-based state management and responsive user interfaces for playlists, channel dashboards, shared playlist views, vertical Shorts browsing, and playback controls across desktop and mobile devices.
- Streamlined content management with authenticated user accounts, watched/liked status updates, centralized settings, playback speed control, and tools for syncing, deleting, and organizing media records.
